

AXLE Ivo

The unique and innovative bicycle parking system for all types of bicycles and tyre thicknesses

STREET
STUFF!

AXLE Ivo

The unique and innovative bicycle parking system for all types of bicycles and tyre thicknesses

With AXLE Ivo you are assured of a high-quality, unique and innovative bicycle parking system, as it supports the bicycle on its axis. This means that there is no impact on the bicycle's wheel during parking and it is suitable for bicycles with different tyre thicknesses. The AXLE Ivo is a circular, modular and flexible product, which can be placed and used in many variations. AXLE Ivo was designed by STREET-STUFF.

1

Low installation- and ownership costs

AXLE offers low installation and maintenance costs. Replacement of individual parts is possible.

2

Circular product through modular construction

The AXLE is made of round materials and has interchangeable and replaceable parts.

3

Safe and stable cycle parking

Bicycles are neatly stored and are safe and stable. Moreover, the AXLE has additional features to prevent theft.
